What is this product?

Type	Securities fund
Term	The Fund does not have a fixed date of expiry. The fund management company retains the right to close the fund and redeem the units. For more information, please refer to the prospectus.
Objectives	The fund is an actively managed long-term fixed income fund that mainly invests in corporate bonds and corporate credits primarily linked to the Nordic region. The fund's objective is, given the fund's structure and aim, to achieve the highest possible value growth of the fund's assets, and in the main scenario annually provide a positive return. In particularly extraordinary market conditions, the fund's annual target is to provide a positive return within a two-year period. Through analysis and selection, the managers make active investment decisions, which means that deviations from the market can be both larger and smaller over time. Such investments that are geographically linked to the Nordic region shall account for at least 50 percent of the fund's value. The fund's investments are focused on corporate bonds and in corporate credit with a lower credit rating (high yield). Investments can also be made in companies with higher credit quality (investment grade) and companies that do not have a credit rating. The average remaining maturity of the fund's investments is normally between one and five years, but during certain periods will be longer or shorter, but no more than ten years. The fund may use derivative instruments, including OTC derivatives, for the purpose of streamlining management and protecting the fund's assets. Investments in foreign currency will be hedged to SEK using derivative instruments. The fund may invest a maximum of 10% of the assets in fund units. The fund may invest a maximum of 10% in so-called unlisted instruments. The fund's benchmark index is Bloomberg Barclays Global High Yield Total Return Index Hedged SEK. The fund's return is determined by how the holdings in which the fund invests increase or decrease in value during the holding period. Purchases and sales of fund units can normally take place on all Swedish banking days.
Intended Investor	This fund may be suitable for investors who plan to keep their investment for at least 3 years and who understand that the money invested in the fund can both increase and decrease in value and that it is not certain that the entire invested capital can be recovered. Investing in the fund does not require any special prior knowledge or experience of mutual funds or financial markets. This fact sheet applies only to unit class C. Share class C is open to investors who, within the framework of an investment service agreement pursuant to Chapter 2. Section 1 of the Securities Market Act (2007:528), or equivalent Swedish or foreign regulation, invests in the fund and where no remuneration is paid by the fund company to the provider of the investment service, and insurance companies that, within the framework of agreements with policyholders, invest in the fund and where no remuneration to the company or insurance distributor starts from the fund company.
Depository institution	Swedbank AB (publ). The annual report, semi-annual report, prospectus, latest unit price and other practical information is available at no cost in Swedish and English at www.simplicity.se , alternatively https://www.simplicity.se/en/ .

What are the risks, and what returns may I get?

Risk indicator

The summary risk indicator provides an indication of this product's level of risk in comparison to other products. It shows the probability that this product will lose value as a result of market developments. The Fund is classified as 3 out of 7, i.e. a medium-low level of risk. This means that there is a medium-low risk of rises and falls in the unit value of the Fund. The indicator primarily reflects rises and falls in the securities in which the fund has invested. Risks that are not reflected by the risk indicator: Counterparty risk - the risk that a counterparty fails to fulfil its commitments to the Fund, such as by not paying an agreed-upon sum or not making agreed-upon deliveries of securities. Operational risk - the risk of losses due to e.g. system failures, human error or external events. This product does not include any protection against future market developments. You may therefore lose some or all of your investment.

Return scenarios

The returns you may receive from this product are dependent on future market developments. The future development of the market is uncertain and cannot be predicted with certainty. These figures include all charges for the product itself, but do not reflect any charges that you are liable to pay to your advisor or distributor. These figures also do not reflect your personal tax situation, which may also affect the amounts that you will receive. The negative, neutral and positive scenarios reflect the worst, average and best returns that this product has generated over the last 10 years. The markets can evolve completely differently in the future. The stress scenario shows what you can get back under extreme market conditions. The negative scenario occurred for an investment in the product or an appropriate benchmark index between 2017 - 2020*. The neutral scenario occurred for an investment in the product or an appropriate benchmark index between 2016 - 2019*, and the positive scenario occurred for an investment in the product or an appropriate benchmark index between 2020 - 2023*.

Scenarios	Investment of SEK 100,000	1 year	3 years (Recommended investment horizon)
Minimum	There is no guaranteed minimum return. You may lose some or all of your investment.		
Stress scenario	What you may receive after deductions for charges	89 990 kr	95 616 kr
	Average annual return	-10,0%	-1,5%
Negative scenario	What you may receive after deductions for charges	87 713 kr	89 880 kr
	Average annual return	-12,3%	-3,5%
Neutral scenario	What you may receive after deductions for charges	102 280 kr	111 815 kr
	Average annual return	2,3%	3,8%
Positive scenario	What you may receive after deductions for charges	123 673 kr	125 184 kr
	Average annual return	23,7%	7,8%

What happens if Simplicity AB is unable to make payments?

By law, the Fund's assets may not be held by the fund management company. Instead, each fund must have an assigned depositary to manage the possession of the Fund's assets. In the event of the fund management company's insolvency, management of the Fund is taken over by the depositary. There is no compensation arrangement or guarantee scheme for investors in the Fund.

What are the charges?

The person giving you advice about or selling the product may charge you further fees. If this is the case, the person in question shall inform you about these charges and how they affect your investment.

Charges over time

The tables show the sums charged to your investment to cover various types of costs. The size of these sums is dependent on how much you invest, how long you hold the product and how your product performs. The sums shown here are based on sample figures for the investment size and various possible investment horizons.

We have applied the following assumptions: For the first year, you will get back the amount that you have invested (0% annual return). For 3 years, we have assumed that the product performs in accordance with the neutral scenario. The investment amount is SEK 100,000.

Investment of SEK 100,000	If you redeem after 1 year	If you redeem after 3 years
Total charges	1 020 kr	3 470 kr
Annual cost effects*	1,02%	1,14%

*This illustrates how costs will decrease your return every year during your investment period. It shows e.g. that if you redeem your units at the end of the recommended investment period, your average return per year would be 4,86% before charges and 3,79% after charges.

As compensation for their services, the person selling this product to you may receive a part of the charges you pay us. You will receive information about this amount.

Breakdown of charges

The sums in SEK are based on an investment of SEK 100,000.

One-off entry or exit charges		If you redeem after 1 year
Entry charges	We do not charge any entry charge, but the person who sells the product to you may do so.	SEK 0
Exit charges	We do not charge any exit charge for this product, but the person who sells the product to you may do so.	SEK 0
Ongoing charges		
Management fees, administrative and operational charges	0,51% of the value of your investment per year. This is an assessment based on actual costs during the last year.	510 kr
Transaction costs	0,51% of the value of your investment per year. This is an assessment based on the costs that arise when we buy and sell the underlying investments in this fund. The actual figure may differ depending on how much we buy and sell.	510 kr
Additional charges levied under certain circumstances		
	No performance-based charge is levied on this product.	Not applicable.

How long should I hold the investment product, and can I withdraw money early?

Recommended investment horizon: 3 years.

The Fund does not impose a required minimum holding period, but as it invests in securities, it is suitable for a medium-long to long investment horizon. You should be prepared to retain your investment in the Fund for at least 3 years. You are normally able to sell your fund units on any banking day without extra charges.

How can I raise a complaint?

If you wish to make a complaint about the fund, you may turn to the person who has advised you about or sold the product to you. You can also turn to the fund management company (www.simplicity.se/om-oss/legal-information) or write to kundservice@simplicity.se, alternatively Simplicity AB, Södra Hamnvägen 12, 432 44 Varberg.
